Countries

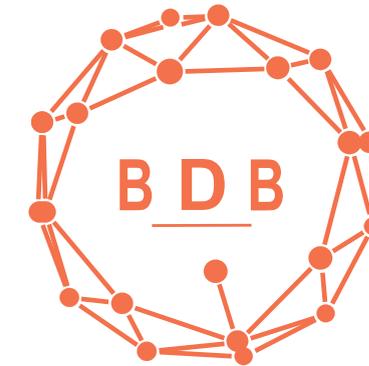

What is BDB Network?

We are a consulting company that **works directly**, with an international structure **strongly rooted** in the countries in which we operate.

We offer support to companies **through our 4 main business units: international business development, operative support, business integration & new project realization and IBDC center**, that combines innovational **immersive hub** and **all services provided by BDB Network** in one place.

"BDB Network represents a new point of reference for companies that operate or want to operate all over the world. It offers real and tangible support for the resolution of all the needs and problems that a company faces for its international development and for the management of its business in different markets."

Fulvio Italiano
Executive President
